

KINDI KIDS LOVE THE TELEPHONE GAME

Come up with a simple sentence then whisper it into the ear of the first child, they then whisper it to the next child, who whispers it to the next and so on until it gets to the last child. The last child then says the sentence out loud, how close were they to the original?

For variations on this game...

- ♥ Draw a letter or shape onto the child's palm with your finger, then ask them to pass it on to the next child.
- ♥ Have the children line up single file so that they can't see the children behind them. Starting at the end of the row, show an action to the child i.e. crossing your arms. They then tap the shoulder of the child in front of them to get them to turn around and share the action. That child then shares the action with the child in front of them and so on.
